

EAST NEWMAN ART TRAIL

Art tells a story, captures a moment,
and can signify a time or a place.

Newman Futures has partnered with Martumili
to create the East Newman Art Trail, showcasing
30 local and emerging artists on 14 BHP
substations around East Newman.

The East Newman Art Trail connects local
artists with the community and encourages
the perceiver of the art to imagine
the possibilities.

Explore the Art Trail and be inspired by
the artists stories that have shaped
their artworks.
